

**Name:-Shubham B.Pasale**

## **String Handling:-**

```
import java.io.*;

public class FwDemo {

    public static void main(String[] args) {
        try {
            File f=new File("d:\\sample.txt");
            FileWriter fw=new FileWriter(f);
            fw.write("Hello friends how are you.....!");
            System.out.println("success");
            fw.close();
        }
        catch(Exception e)
        {
            e.printStackTrace();
        }
    }
}
```

## **Output:-**

Success
