**Name: Rupali Dhanaji
Yadav.**

Program name :- MultiThreading

Code :-

```
class Test extends Thread{

        public void run() {

                try { Thread.sleep(2000); }

                catch(Exception e) {

                        e.printStackTrace(); }} }

public class MultiThreadingDemo {

        public static void main(String[] args) {

                Test test = new Test();

                for(int i=1;i<=100;i++) {

                        Thread t = new Thread(test);

                        t.start();

                        System.out.println(i);

}          }}
```
