Name:- Shubham B.Pasale
Exception_Handling:-

```java
public class Edemo {

    public static void main(String[] args) {
        try {
            int a=Integer.parseInt(args[0]);
            int b=Integer.parseInt(args[1]);
            int c=a/b;
            System.out.println("Result="+c);
        }
        catch(Exception e)
        {
            System.out.println(e);
        }
        finally
        {
            System.out.println("Hello friends");
        }

    }

}
```

Output:-
java.lang.ArrayIndexOutOfBoundsException: Index 0 out of bounds for length 0
Hello friends
